

Puppies need to be vaccinated! They need 3 shots, one each at 7 weeks, 11 weeks and 15 weeks old. They also will need to be dewormed at 7 weeks. Please set up a wellness schedule with your vet!

We have provided a checklist below to print and help you keep track. CCK gives the first shot, the rest are up to you.

WEEKS OLD ▶		7	11	15
VACCINATIONS	Dewormed	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Distemper	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Adenovirus 2	FOUR-WAY SHOT	<input type="checkbox"/>	<input type="checkbox"/>
	Parainflueza		<input type="checkbox"/>	<input type="checkbox"/>
	Parvovirus		<input type="checkbox"/>	<input type="checkbox"/>
